**All Items IN STOCK at C.H. Briggs in the popular 15/16" x .018" size. See page 14 for additional IN STOCK widths, thicknesses and product availability options.**

*C.H. Briggs reserves the right to add or delete stock items without notice. Colors and patterns have been individually matched and cross-referenced using industry accepted standards and procedures. The manufacturer's best efforts have been utilized to ensure acceptable color matches, both between laminates and between laminate and edgebanding. However, color drift may occur in individual paper and resin batches that is beyond the manufacturer's control. The manufacturer's warranty and liability for bond, color, pattern, surface finish and recommended matches is limited to only the replacement value of the specific edgebanding material involved. All edgebanding materials should be checked and confirmed for acceptability prior use.*

***Didn't find the color, pattern or size you're looking for? Doellken-Woodtape has hundreds of additional items in stock for immediate shipment. Contact C.H. Briggs for availability.***

*C.H. Briggs reserves the right to add or delete stock items without notice. Colors and patterns have been individually matched and cross-referenced using industry accepted standards and procedures. The manufacturer's best efforts have been utilized to ensure acceptable color matches, both between laminates and between laminate and edgebanding. However, color drift may occur in individual paper and resin batches that is beyond the manufacturer's control. The manufacturer's warranty and liability for bond, color, pattern, surface finish and recommended matches is limited to only the replacement value of the specific edgebanding material involved. All edgebanding materials should be checked and confirmed for acceptability prior use.*

## Adhesives For Edgebanding

Doellken-Woodtape and C.H. Briggs represent the Dorus® line of high-quality, superior performance adhesives. Typical woodworking applications include edgebanding, softforming, dowel insertion and numerous other woodworking applications. The following table provides information about our stock program and recommended application.

C.H. Briggs Part No.	Base	Viscosity CPS	Recommended Application Temp	Machine Speeds	Heat Resistance	Edgebanding Applications							Comments
						PVC	ABS	Veneer	Polyester	Melamine	Solid Wood	HPL	
WTKS2014	EVA	140,000	210-220C	F	110C	■	■	■	■	■	■	■	Universal for edgebanding softforming and high heat resistance.
WTKS205	EVA	150,000	200-220C	M	95C	■	■	■	■	■	■	■	Highest adhesion, multipurpose for all edgebanding.
WTKS208	EVA	130,000	180-200C	F	90C	■		■	■	■	■	■	Good performance for general use. Standard grade.
WTKS217	EVA	55,000	180-200C	S	90C	■	■	■	■	■	■	■	Multipurpose adhesive recommended for granular feed on quick melt glue systems.
WTKS351	EVA	75,000	190-200C	F	90C	■	■	■		■	■	■	Multipurpose clear and unfilled adhesive.
WTAS223	EVA	10,000	120-140C	S	75C	■		■					Low temperature adhesive for contour edgebanders.
WTHKP21	EVA	90,000	190-200C	M	90C	■	■	■	■	■			Standard grade, multipurpose cartridge adhesive.
WTHKP25	EVA	55,000	190-200C	S	90C	■	■	■	■	■	■	■	Premium grade, multipurpose cartridge adhesive.
