DuPont Chosen As Brand Leader In Builder Survey

In **BUILDER** magazine's annual brand preference survey of readers, **DuPont™** Tyvek® weather barriers won every award in the housewrap category. These specially engineered weather barriers are just a few of the many innovative products that are part of **DuPont Weatherization Systems**—a complete portfolio of integrated products that work together in every climate and in every type of home construction.

DuPont Weatherization Systems

From specialized wraps to flashing and fasteners, we offer everything you need to help you seal the building envelope, providing superior protection against a home's worst enemies—water, trapped moisture and air infiltration. **DuPont Weatherization Systems** help you create more comfortable living spaces that are also more energy efficient. Homes stay cooler in the summer, warmer in the winter and drier all year long, helping homeowners better manage their energy usage.

DuPont Building Innovations

In addition to sweeping the housewrap category, **DuPont Building Innovations** was honored by having two other products in its portfolio chosen as Brand Leaders in the solid surfaces and quartz surfaces categories. **DuPont™** Corian® solid surfaces were ranked number one for: Brand Familiarity; Brand Used in Past Two Years; Brand Used Most; and Quality. **DuPont™** Zodiaq® quartz surfaces were recognized for Quality. As decorative surfaces for residential kitchens and baths, Corian® and Zodiaq® offer lasting beauty, superior performance and endless design options.

At **DuPont Building Innovations**, we are committed to using our dynamic science and expertise to help you build sustainable homes that are easy to love. You can rely on **DuPont** to continue to deliver products that will earn your vote as brand leaders.
