

**Statement of Compliance  
C.A.R.B. 93120.2a**

October, 2008

I, the undersigned, confirm that all products sold by Rev-A-Shelf, LLC containing (HWPW) Hardwood Plywood meet or exceed the requirements in Phase I of CCR 93120.2a. Rev-A-Shelf uses no PB or MDF in its products.

We have taken "reasonable and prudent precautions" to ensure our products meet the applicable emission standards in 93120.2a. As an Importer, we have gone above and beyond our responsibilities under this regulation. Our vendors are aware of all product testing and documentation requirements.

Given our current inventory and sales levels, we plan to be labeling all wood products shipped from Rev-A-Shelf no later than January 1, 2009. C.A.R.B. allows for an 18 month "sell-through" time period; therefore it is incumbent of our various customer channels to properly turn their inventories in order to be using only labeled, compliant material as soon as possible.

Please keep a copy of this signed document along with supporting materials in order to meet your own requirement for C.A.R.B. Compliance and recordkeeping.

Forward all questions to our Director of C.A.R.B. Compliance, Mr. Kyle Mullin, at 800/626-1126 extension 8216 or his email address is [kmullin@rev-a-shelf.com](mailto:kmullin@rev-a-shelf.com).

Sincerely,

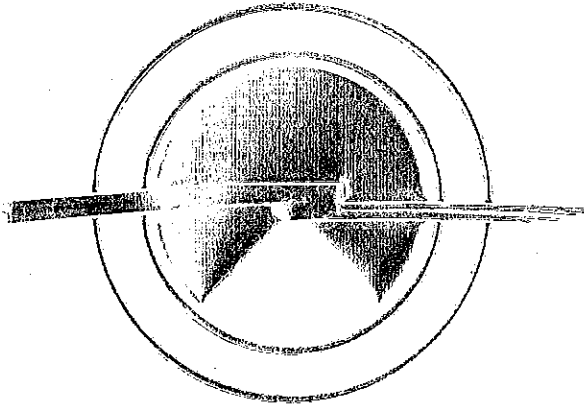

David P. Noe  
G.M./V.P. of Sales and Marketing

Re: C.A.R.B. CCR 93120.2a  
October, 2008

I am writing to let you know that Rev-A-Shelf will be in full compliance with the (C.A.R.B.) California Air Resource Board CCR 93210.2a.

As a Distributor of our products, you need to be aware of this regulation that will affect all composite wood products sold in the State of California beginning January 1, 2009. This will also affect internet sales, as well as jobs fabricated in one state but shipped and sold into California.

We plan to begin labeling our products for compliance in the next few months as our current inventories are depleted. We will be compliant by the end of the year. It will be more important than ever that you properly turn your inventory (FIFO) in order to reach compliance as soon as possible. Due to this regulation, we will not be able to allow returns of any non-compliant (not labeled) materials due to overstock effective immediately.

You should be aware of your responsibilities for compliance. If you sell products or your customers sell products into California, you will be required to maintain records from all of your wood product suppliers. The form we have attached and copies of our stamped invoices will be all you need from Rev-A-Shelf. View C.A.R.B. 93120.2a Final Regulation Order <http://www.arb.ca.gov/react/2007/compwood07/fro-final.pdf>.  
What the C.A.R.B. rule means to you:
